

CITY OF MINNEAPOLIS

Vision Zero Capital Program 2023 Projects

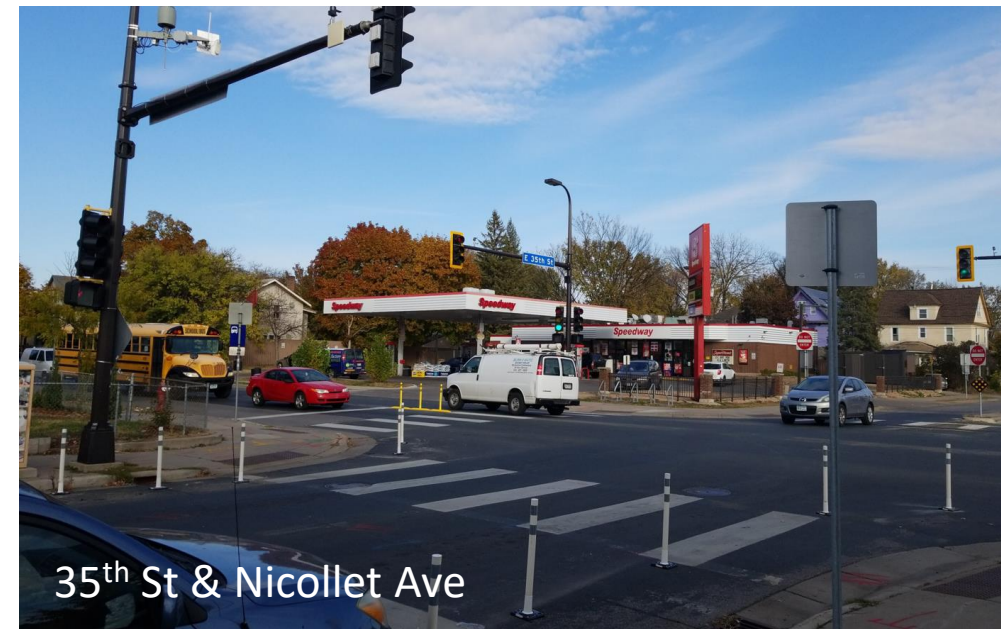

Vision Zero Capital Program Overview

- This program supports the Vision Zero Action Plan by making cost-effective safety improvements systematically and rapidly on High Injury Streets
- Reflects a data-driven approach directly informed by the Vision Zero Action Plan

Vision Zero Capital Program Overview

- More than 150 intersections have received safety improvements to date
- Working to implement safety improvements on all city-owned High Injury Streets over the next few years
 - Updated High Injury Streets with 2022 VZAP update
- ~ \$800K budget in 2023

Vision Zero Capital Program Overview

- Improvements intended to fundamentally improve feel, safety of corridors
- Most improvements will be constructed with quick build materials such as bollards and paint
- Exploring opportunities to upgrade these with curb improvements where possible

Potential Treatments

BUMPOUTS

HARDENED CENTERLINES

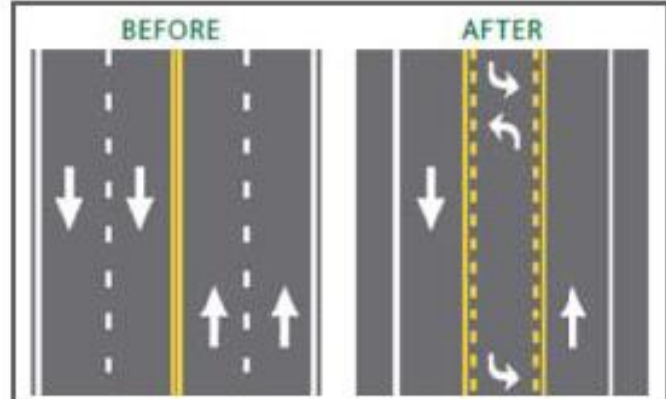

MEDIANS

MARKED CROSSWALKS

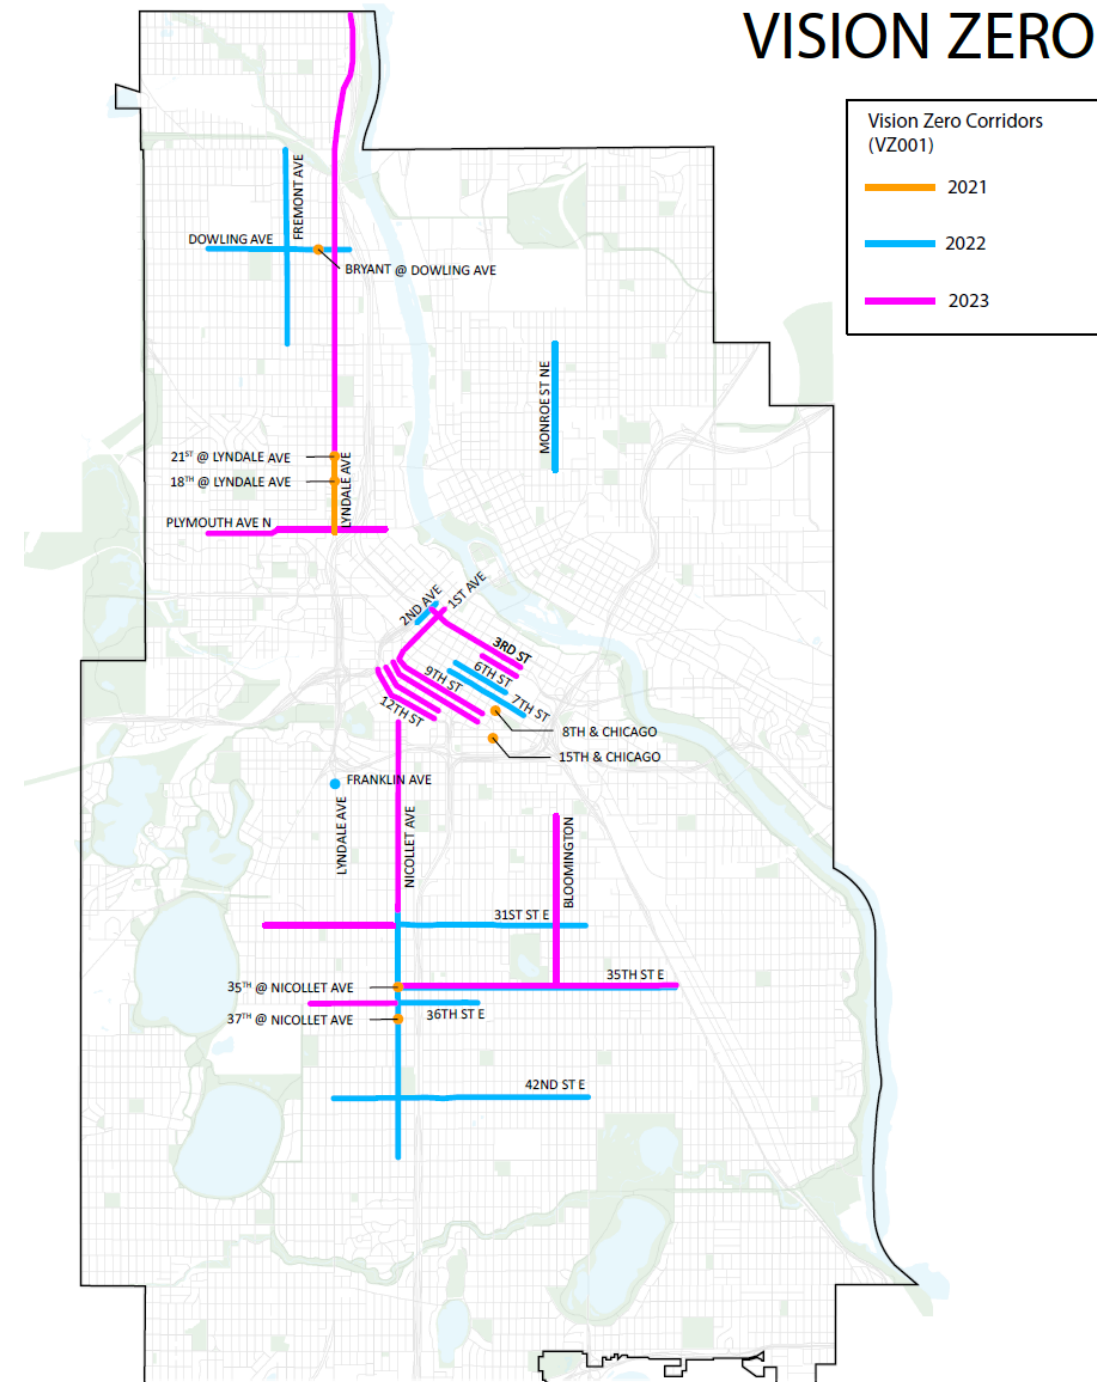

BIKE CONFLICT STRIPING

4 TO 3 LANE CONVERSION

Vision Zero Capital Program Overview

- 2023 corridors:
 - Plymouth Ave N (*Penn Ave to N 2nd St*)
 - Lyndale Ave N (*22nd Ave N to northern city boundary*)
 - 31st St W (*Holmes to Nicollet*)
 - 35th St (*Nicollet to Hiawatha; remaining intersections from 2022*)
 - 36th St W (*Colfax to Nicollet*)
 - Bloomington Ave S (*24th St to 35th St*)
 - Nicollet (*Grant St to Lake St*)
 - Various downtown intersections along 1st Ave, 3rd St, 4th St, 9th St, 10th St, 11th St, 12th St

2023 Timeline

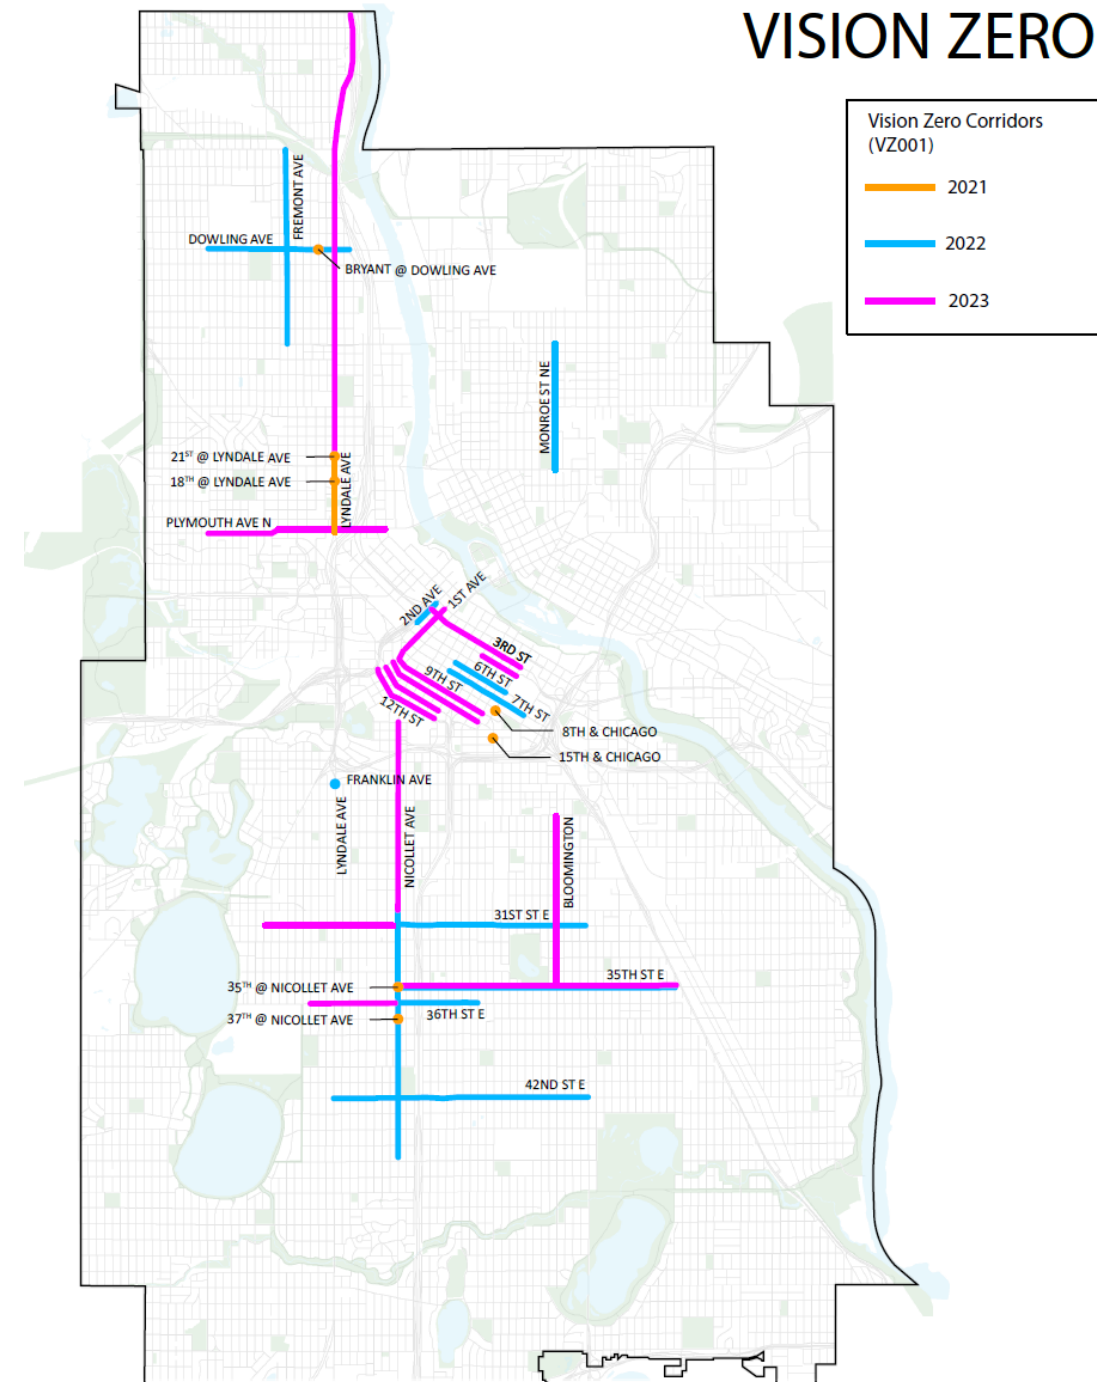

- **December – February:** finalize scoping for 2023 projects
- **March – April:** Community engagement and stakeholder conversations
- **Spring/Summer:** Installation of 2023 projects

Next Steps

- Develop design concepts and plans for 2023 corridors
- Begin engagement for all 2023 corridors
- Continue coordination with intersecting/overlapping capital projects and partners
- Installation anticipated spring/summer 2023

VISION ZERO

Thank you
